

## Retell Activity

- Ask your student to retell the story in order.
- Encourage them to use words like: First, next, then, last
- If you want to make it a game, you can use a whiteboard or piece of paper to tally how many details they get.
- Then you can switch and they can tally how many details you get!
- As an extension, have them write the most important details in order.

*\*\*If they get stuck, prompt them by saying, "What happened next?" or "Can you remember any other details?" or "What happened on this page?"*
