PARENT LETTER, PERMISSION FORMS & SKILLS FORMS

Parent Letter

A printable Parent Letter in both English and Spanish is provided on the School Liaison page of our website. This Parent Letter shares information about the Whiz Kids Program and allows you to fill in information about when and where your site meets, as well as important contact information of site leadership. Please fill this form out and share with parents along with the tutoring permission form.

Tutoring Permission Form

Tutoring permission slips need to be completed and submitted online by the parent/guardian. If parents do not have a way to fill out a permission form online there are printable applications available on the School Liaisons page of our website. Once a paper application has been turned in you can follow the online application link to manually enter the information parents filled out.

Returning Student Permission Form – If a student has participated in Whiz Kids in the past and would like to return there is a link to a returning student permission slip that you can send that allows parents to update information for the current school year without refilling all of their information. You can view the [Using the Returning Student Permission Form](#) video on the School Liaison page of our website to help you learn how to send these.

New Student Permission Form - If a student is new to Whiz Kids they will need to fill out the New Student Permission Form. You can find the link to the online permission form as well as a printable version on the School Liaison page of our website.

Club Permission Form

Club Time is an optional part of our program and includes music, a short activity, and a message about God's great love for us. If parents/guardians want to have their child participate in Club Time they are asked to sign a separate permission form. You are not required to share the Club Permission form with parents/guardians; usually tutors or the Site Coordinator will connect with parents/guardians before the first session to see if they can participate in Club Time.

Student Skills Form

The Student Skills Form is to be completed by the student's classroom teacher to help the tutor understand where their student is at and what skills they need to work on. Remind the teachers to use simple language as they make recommendations for tutors. You can find the link to our Skills Form on the School Liaison page of our website. Please copy and paste the link to the Skills Form and share with our Whiz Kids' classroom teachers.

INJURY, SUSPECTED CHILD ABUSE AND INCIDENTS OF THREAT

On-site Injuries

- If the injury is minor – give first aid as needed (band aids, ice, etc.)
- For injuries which may require treatment beyond first aid call the student’s parent/guardian immediately and discuss options (sending home, meeting them at urgent care, etc.)
- For injuries and/or incidents that are emergencies – call 911.
- **Please also call your Field Director in the cases of anything greater than a minor injury.** Depending on the situation you may be asked to complete an incident report which Whiz Kids will provide to you.

Suspected Child Abuse

- A tutor or Site Coordinator should inform the School Liaison if they suspect a child is being harmed, abused, or severely neglected. The School Liaison may have more context from school.
- Together the tutor and School Liaison (or Site Coordinator) will call the Department of Social Services to open a case. All parties will remain anonymous. 844-CO-4-KIDS, 844-264-5437
- We also ask volunteers NOT to attempt to investigate or procure additional information regarding the suspected abuse.
- If follow-up is needed, the Executive Director will reach out.

Incidents of Threat

- If a volunteer hears a student threatening to harm himself or someone else, this is a police call, not a CPS call. Inform your Site Coordinator and call 911 to report the incident.
- We also ask volunteers NOT to attempt to investigate or procure additional information regarding the threat.
- If follow-up is needed, the Executive Director will reach out.

LOGGING INTO THE WHIZ KIDS DATABASE

What you will use the database for:

You can log into the Whiz Kids database to see updated information for your site. MATCHING STUDENTS AND TUTORS

1. At the beginning of the year your Field Director will provide you and the Site Coordinator a draft of your roster. You can also access your site's roster through the database by doing the following:

To View or Print Your Sites Roster:

- Login to the database by going to the School Liaison page under the volunteer resource tab of the Whiz Kids' website and click "Log on to the Whiz Kids Database"
 - Login using the CONTACT LOGIN by entering the email we have on file for you
 - Then enter the password you chose when creating your account with Zoho
 - Go to SITES
 - Tap on your site
 - Go to the ENROLLMENT TAB
 - Click on the DOWNLOAD PDF YOUTH ROSTER tab. A new box will appear. Click RUN and then print.
2. Work with the Site Coordinator to match students and tutors by considering who would be the best match for which student based on what you know about them and the tutor.
 3. When possible, match male tutors with male students and female tutors with female students. If that is not possible, the Site Coordinator will contact the parent/guardian to be sure everyone is comfortable.
 4. Let your Field Director know of new matches so they can update the database accordingly.

WELCOMING STUDENTS

As new or returning students register and are placed at a site, the Site Coordinator and School Liaison will be notified. To make a seamless introduction to Whiz Kids, your Field Director will collaborate with both people to determine who will call and welcome the student and family. Please reach out and welcome families **as soon as possible** with the following information.

- Introduce yourself and the role you have at your Whiz Kids site
- What is the day, time, and location of your site?
- What time is drop off and pick up?
- Will they need help with transportation? If getting your child to or from Whiz Kids is difficult, please let me know so we can figure out how to provide a ride.
- Once they are matched with a tutor, the tutor will reach out to meet the family. If the student has already been matched, let them know the name of the tutor that will reach out.
- Explain how the tutoring hour is structured (20 minutes of reading help, 20 minutes of math help, 20 minutes of homework help or educational games)
- Also, let them know about Club Time (30-minute faith component of Whiz Kids that includes music, a short activity, and a spiritual message).
- If your student hasn't already filled out a club form, the tutor will reach out to share the online link or provide a paper permission form.
- Ask if they have any questions.

LET THE TUTORING BEGIN

1. Make sure you know the Wi-Fi credentials for your site. Familiarize yourself with the many tutor resources on our website under the Tutoring Resources tab so you can help answer questions tutors might have.
2. Arrive early to help your Coordinator prepare for the tutoring session: help set out books, games, name tags, etc. Be welcoming and warm as everyone arrives (learn tutor and student names).
3. Create a productive learning environment. Whiz Kids is designed to be fun, but students are still expected to conduct themselves as they would at school. Help your Site Coordinator set expectations for respectful behavior that helps tutors and students settle into a comfortable routine.
4. Be available during the tutoring hour to offer academic support. Walk around, encourage tutors in what they are doing with their students and give them new ideas when needed.
5. Take attendance during tutoring through the Whiz Kids Database.
6. Help clean up tutoring materials when tutoring is over.
